Claim Rejections - 35 USC § 103

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to consider the applicability of 35 U.S.C. 103(c) and potential 35 U.S.C. 102(e), (f) or (g) prior art under 35 U.S.C. 103(a).

3. Claims 14, and 18-20, are rejected under 35 U.S.C. 103(a) as being unpatentable over Miller et al (2002/0170073) in view of Yap et al (2002/0092021) as set forth in the previous Office Action mailed out on 9/12/06.

Response to Arguments

4. Applicant's arguments filed 12/12/06 have been fully considered but they are not persuasive.

Applicant argues that the cited reference of Yap fails to disclose the feature of the set top box (STB) that communicates over an interface with a digital video recorder and that the Yap's reference only discloses a DVR GUI not a STB GUI as claimed,

Art Unit: 2621

Examiner disagrees. It is noted that, as indicated in the previous Office Action, the Yap's reference does in fact disclose the claimed feature of the set top box (STB) that communicates over an interface (GUI) with a digital video recorder. Applicant's attention is directed to Yap's Figure 1, where it is shown a STB GUI (component 90) included in a STB (component 100) having the capabilities to communicate with the recorder (component 200). It is further to be noted that the recorder 200 is not integrated in the STB 100 as suggested in the Applicant's Remarks. Applicant's attention is further directed to Yap's page 4, paragraph [0051], lines 3-4, and paragraph [0058].

5. Claims 1-13, and 15-17, contain allowable subject matter over the prior art of record.

Conclusion

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

Art Unit: 2621

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
